

CHORAL CONCERT Save the Date: August 4 TCF Benefit at Camp Wabun

*Music lovers in the Temagami community are in for a treat on the late afternoon of August 4 when the **Temagami Community Foundation (TCF)** will sponsor a concert of choral music at Camp Wabun.*

For good measure, the programme will also include a fried fish dinner with accompanying champagne!

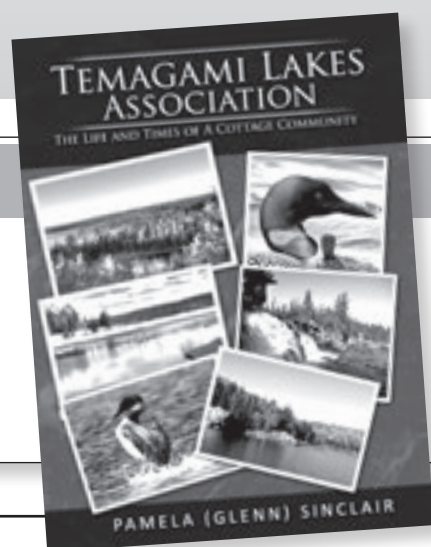

Veteran choral director Marty Banghart of Island 1088, who has sung for many summers at the non-denominational services at St. Ursula's Church on Bear Island, is bringing up to the lake the Deer Creek Chamber Choir, a group of 13 singers from Maryland where she has been active in musical and community organizations for many years. The chamber choir, whose members range from 24-65 years and who sing without accompanying instruments except for some vocal percussion, performs in various community outreach venues and private parties.

It's also an important part of its parent organization, the Deer Creek Chorale, an intergenerational community choir with a dual mission of bringing quality and eclectic choral repertoire to the greater community as well as giving back to local and global communities. The Chorale

has worked with such clinicians as Simon Carrington, founder of the internationally-known King's Singers; Z. Randall Stroope, a top composer of contemporary modern choral works; John Rutter and Tom Hall.

Tickets for the August 4 concert and dinner will be on sale around the lake in the coming weeks and through the **TCF (tel: 705-569-3737)**. Cocktails will begin at 4:30 PM followed by dinner and the concert. The event will benefit the TCF's outreach activities and grants throughout the greater Temagami community.

Chamber choir selections will range from folk songs, pop songs, spirituals and novelty pieces. As examples, Marty cites "Good Old A Cappella," "Shenandoah," "Loch Lomond," "Ride the Chariot," "Teddy Bear's Picnic," "Can't Buy me Love," "Crazy Little Thing Called Love" and "Lonesome Road."

Loon Survey Volunteers Needed!

By Justin Metz , TLA Board of Directors - Fish and Wildlife

The TLA is calling on all Loon lovers to assist us with our Loon Nesting Platform Project and our overall commitment to the preservation of the Loon population in Temagami. In order for this project to be successful, a number of Loon Surveys must be completed on the lake. The TLA will be working closely with Bird Studies Canada in participating in the Canadian Lakes Loon Survey (CLLS).

Taking part in the CLLS is an excellent way to enjoy watching loons over the summer while contributing to loon research and conservation. To track loon chick survival through CLLS we need each volunteer:

in June to watch for pairs of loons occupying the lake;

in July to look for newly-hatched chicks;

in August to record the number of chicks that have survived the summer.

Each participant is provided with a survey kit and detailed instructions that explain the survey protocol. You decide which part of the lake you wish to survey within the Common Loon's breeding range; even parts of the lake without loons provide valuable information.

All participants will receive a paper kit that can be picked up at the TLA Building in mid-May. Surveyors have the choice of submitting their observations to Bird Studies Canada on paper or entering them online at Bird Studies Canada's website. All observations are to be submitted by September 15th.

We understand that many of us (unfortunately) cannot visit our islands at least once from May to August; however, if you are interested in this project nonetheless, or have any personal historic data on loon breeding sites and success rates, we would love to hear from you.

Please inquire about this great volunteer opportunity with the TLA by email: tla@onlink.net or by phone (705) 237-8927.

THAT'S SOME SERIOUS COVERAGE.

Maybe you close your cottage every winter. Or you're located on an island, does that mean you don't deserve proper insurance coverage? Of course not. Take a look at what Kennedy Insurance offers then give us a call.

- Personal property inspections can be arranged
- Coverage is available to non-residents of Ontario
- Complete a review of your existing insurance program
- Coverage can include vandalism, theft, collapse and bear damage
- Programs can include watercraft, snow machine and recreational vehicle coverage
- Specializing in remote and island access properties

Your Septic System

Most rural homes and cottages use a septic system - a sewage system that usually consists of a tank and a leaching bed, also sometimes called a tile bed. A septic system is privately owned, and by law you are responsible for its safe operation, maintenance and repair.

WATCH FOR SIGNS OF AN IMPROPERLY FUNCTIONING SEPTIC SYSTEM

Warning signs of an improperly functioning septic system are many – some are obvious and some require more effort to notice.

AROUND THE HOUSE OR COTTAGE:

- the grass over the system may become unusually green or spongy to walk on
- toilets, showers and sinks may take longer to drain
- occasional sewage odours may become noticeable, often after a rainfall
- you may see gray or black liquids surfacing in your yard, or backing up through plumbing fixtures into the house

IN LAKES AND PONDS

Leaks from septic systems can cause weeds and algae to grow in lakes and ponds. Just a small amount of additional phosphorus (which can come from soaps, shampoos, household cleaning products and detergents) in a lake or pond can make a huge difference in the amount of weeds that grow during the spring and summer.

Automobile & Marine Battery Recycling

Temagami Marine is once again offering to collect used automobile and marine (lead acid) batteries for 2013. Quite a few people dropped off their used batteries at Temagami Marine last year and we wish to thank all those who did. This wonderful community service is available to everyone and it is **FREE**. These batteries are then recycled through Crown Batteries.

We encourage each and every one of our readers to bring their used batteries to Temagami Marine. We all rely on batteries and we need to consider where they go when they are no longer useful to us.

Proper disposal is also important for household batteries. The TLA accepts your old, spent flashlight batteries (AA, AAA, C, and other sizes). Just drop them off at the TLA Headquarters and we will dispose of them properly for you.

Sewage & Marine Services

Sewage Systems

Design

- 30 years of experience designing island sewage systems
- We pay attention to the details creating a system that is effective and attractive

Approvals

- We complete the paperwork for municipal site plan control agreements and Timiskaming Health Unit approvals
- We provide transport, where required, for inspectors and attend all site inspections

Build

- We minimize disturbance to protect the natural viewscape at the shoreline and within the island
- Licensed as both contractor and installer since 1983
- Install sewage pumps and renovate plumbing where required
- Install and service both septic tank/file fields and holding tanks

Sewage Pumpouts

On average, seasonally used septic tanks ought to be inspected after 13 years of use and have their accumulations measured to establish a pumpout schedule in order to prevent premature tile bed failure.

- Licensed hauled sewage contractor since 1982
- Septic tank inspections
- Scheduled pumpout service every fall (share the expense with other island properties to keep costs down)
- Emergency pumpout service available

Marine Freight

Sand • Gravel • Crushed Stone • Topsoil • Crib Rock
Building Supplies • Brush Cleanup

(Small loads, including furniture and appliances, can be delivered in conjunction with our propane deliveries)

**We have both the proper equipment
and attitude to do the job right!**

Temagami ARTISTIC COLLECTIVE Update

FREE WORKSHOPS FOR YOUTH

The Temagami Artistic Collective (TAC) is hoping to encourage youth to get involved in music, perhaps learn to play guitar or other various instruments. So TAC is planning to put on some workshops for youth aged 10 and up, free of charge, this summer. The Municipality of Temagami has agreed to sponsor this initiative by providing the venue – the Bunny Miller Theatre in the Temagami Welcome Centre building.

The workshops will feature instructional videos and demonstrations. Dates have yet to be determined, but we encourage anyone interested to check for updates on the Temagami Artistic Collective facebook page, or contact David or Carolyn Laronde at 705-569-2904 or email meegwich@ontera.net

LOCAL MUSICIAN RELEASES DEBUT CD

Temagami resident, David Laronde is pleased to have released his debut CD in April 2013. David is a driving force behind the Temagami Artistic Collective, who present concerts at Temagami's 'little theatre with the big sound' (the Bunny Miller Theatre in the Temagami Welcome Centre), bringing in talent from across Canada.

The concert to introduce his new CD, entitled "right city wrong town" is at the Bunny Miller Theatre on June 1st. David has also performed at the Capitol Centre in North Bay and the Classic Theatre in Cobalt, as well as at the town Waterfront for Canada Day celebrations.

He describes his music as "contemporary folk and rock blending elements of traditional sounds into one distinctive, edgy sound". As a songwriter, David intends to create a mood, a scene in your mind's eye, and speak to you in person through his lyric. It's the connection with the listener he's after. For more information, please visit www.davidlarondemusic.com.

TEMAGAMI PUBLIC LIBRARY NEWS

By Shelley Rowland

How wonderful it is to sit on my deck reading a great book and enjoying the wonderful weather. The crocuses are blooming, birds are nesting and the grass is getting greener. We're looking forward to seeing all of our summer residents' return to beautiful Lake Temagami.

FISHING IN TEMAGAMI

We invite you to email (library@temagmi.ca) or bring in a picture of fish you have caught here in Temagami. These will be displayed on our bulletin board for all to envy!! Please be sure to let us know if you want your picture returned.

BOOK CLUBS

The Young Adult Book Club has finished reading *Infinity & Inevitable* (The Chronicles of Nick) by Sherrilyn Kenyon and it was enjoyed by all. The next book chosen is *City of Bones* by Cassandra Clare.

The Adult Book Club read *The Blood of Flowers* by Anita Amirrezvani. We found it informative and enjoyable. Our next book is *The Sunbird* by Wilbur Smith.

LIBRARY ARCHIVES

We now have 59 folders (1,714 pictures) on the library's website for viewing. We would appreciate any feedback.

NEW BOOKS

Below you will find a list of some of our newest titles.

Non Fiction: *The Blood Sugar Solution Cookbook*/Hyman, *Paradise Beneath Her Feet: How Women Are Transforming the Middle East*/Coleman, *The Autism Revolution: Whole-Body Strategies for Making Life All It Can Be*/Herbert, *Shred: The Revolutionary Diet*/Smith, MD, *Darwin's Ghosts*/Stott, *Zero Waste Home*/Johnson, *Design in Nature*/Bejan & Zane, *Going Solo*/Klineberg

Audio Books: *Lean In: Women, Work and the Will to Lead*/Sandberg, *What We Talk About When We Talk to God*/Bell (also available in print format)

Adult Graphic Novel: *How to Tell If Your Cat is Plotting to Kill You*/Oatmeal (Best Seller for weeks!)

Adult Fiction: *Suspect*/Crais, *Mudwoman*/Oates, *Calculated In Death*/Robb, *The Storyteller*/Picoult, *The Chance*/Kingsbury, *Alex Cross*, *Run*/Patterson, *Beckon*/Pawlik, *The Newlyweds*/Freudenberger, *Taking Eve*/Johansen, *The Nearest Exit*/Steinhauer, *Death of Yesterday*/Beaton, *419*/Ferguson, *Wedding Night*/Kinsella, *Garden of Burning Sand*/Addison, *The Perfect Ghost*/Barnes, *The Red Moth*/Eastland

Large Print: *Hit Men*/Block, *The Sound of Broken Glass*/Crombie, *The Guilty One*/Ballantyne

Young Adult: *Unremembered*/Brody, *Just One Day*/Forman, *The Mirrored Shard*/Kittridge, *The Flask*/Singer, *Betsy Wickwire's Dirty Secret*/Grant, *Things I Can't Forget*/Kenneally, *Inferno*/Kenyon, *House of Secrets*/Columbus

Juvenile Fiction: *Face Off at the Almamo*/McGregor, *Winterling*/Prineas, *Nobody's Perfect*, *I'm As Close As It Gets*/Benton, *Ice Island*/Shahan

TOOT TOOT – Whistles and Sound Signalling

By Angus Scully

Sound behaves in an interesting way over water. On a flat calm day, we can hear people sneeze a kilometer away. People trolling by our island speak loudly to be heard by their fishing partner over the sound of the motor – and we can hear every word, including their comments on the condition of our dock.

According to Howard Shaw, Ph. D. and Cheryl Jackson Hall, Ph. D., “Experience suggests that sound, like light, travels (more or less) in straight lines. However, to the contrary, sound actually tends to curve downwards over a lake’s surface.”

“Sound traveling along straight lines would disperse quickly into the space above the lake. Instead, sound that “should” rise up and be lost typically curves back down to the lake/ground level. Therefore, it sounds louder than it “should.” This is a well-known and easily demonstrated observation, measurable out there on real lakes.”

Yet calling out to someone can be just a waste of time once there are waves or a wake. Surface disturbance of the water interferes with how sound waves travel. In addition, the pitch of a normal voice has trouble piercing the noise of waves and wakes. Engine noise also interferes. Shouting to boaters to warn of danger or to call people for lunch can be a waste of breath.

Instead, try a whistle or air horn.

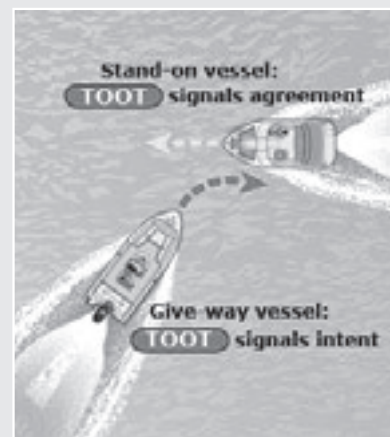

Having a pea-less whistle or other approved sound signalling device aboard every boat has been required for many years. Most of us rely on having one in the safety kit we carry. Have one handy where you sit while driving the boat too. The Fox 40 whistle is extremely loud and commonly available. An air horn operating on compressed air (use a hand pump) keeps its charge for months and provides an even louder signal. These are available at marine supply stores and Canadian Tire.

Sources:

Drowning in Noise: Noise Costs of Jet Skis in America, Executive Summary. A Report for the Noise Pollution Clearinghouse by Charles Komanoff & Howard Shaw, Ph. D. APRIL 2000.

Can't Hear You - Keep Shouting. By Wayne Spivak, National Press Corps United States Coast Guard Auxiliary http://waterski.about.com/od/tipstricks/a/sound_on_water.htm

Collision Regulations, Canada Shipping Act 2001. http://laws-lois.justice.gc.ca/eng/regulations/C.R.C.,_c._1416/FullText.html

- To get attention or warn of danger give 5 blasts on the whistle or horn. When driving a car we rely on signal indicators and backup lights to inform other drivers about our intended movements. In boats, sound signalling serves the same purpose.
- When about to operate your boat in reverse – 3 blasts.
- One short blast to mean: I INTEND TO OVERTAKE YOU ON YOUR STAR BOARD SIDE.
- Two short blasts to mean: I INTEND TO OVERTAKE YOU ON YOUR PORT SIDE. The boat being passed replies with the same signal if in agreement, or sounds 5 blasts if there is danger.

Review safe boating practices in the Safe Boating Guide at <http://www.tc.gc.ca/publications/en/tp511/pdf/hr/tp511e.pdf>

A Temagami Evening

By Frances Cameron

We set out rowing
Meringues of white thunder clouds
In the sky ahead of us
We watched carefully for lightning
There was none.

The sun went down
Gilding white puffy cloud
With brilliant gold
We looked behind
And saw a huge luminous thunder cloud
Advance like a dragon
Upon us.

We rowed rapidly to shore
As the thunder rumbled ominously.

We were impressed
With the power of nature
And with an understanding
Of how we must honour

This power.

Boating on the ice. Photo by Peter Healy

WHY RECYCLE?

Here's why: Each ton of recycled paper can save 17 trees, 1,438 litres of oil, 24.6 cubic meters of landfill space, 4000 kilowatts of energy, and 26,498 litres of water. This represents a 65 percent energy savings, 58 percent water saving, and 60 pounds less of air pollution!

ATTENTION

Future Journalists/Lake Community Archivists

The Temagami Times needs reporters/columnists from all corners of the lake to share their experiences, events and/or lake history. We will print submissions, subject to the usual editorial review. Students may want to contribute items as part of courses or to obtain community volunteer credits.

GEORGE MATHIAS

Septic Systems & Services

Vacuum Septic Disposal Service

The first system we had to pump out septic tanks was the "Trash Pump" system. We found that solids were being left in the septic tank. George then decided to invest in a vacuum pump, which is the most environmentally friendly, sanitary and thorough method to dispose of septic waste!

SEPTIC SYSTEM INSTALLATIONS

- Conventional & Commercial Septic Systems Installed
- Authorized Ecoflo Biofilter (peat moss) installers

TRASH PUMP

Solid Waste Remains in Tank

VACUUM PUMP

All Waste Removed From Tank

Delivery service for camps & contractors (flat or hourly rates) available

Waterfront Upgrades

Work in Progress: the revitalization of the docks and decking at the waterfront by the town Welcome Centre will make the area more attractive, safer and more accessible. The work was started while the lake was still frozen, but these photos were taken soon after break-up. It is all part of a Waterfront Development Project funded by the Provincial and Federal Governments and the Municipality. Check it out on your next trip to town.
