THE TIMISKAMING HEALTH UNIT DISTRICT ZONE IS YELLOW - Monday March 22, 2021, the Timiskaming Health Unit District moved into the Yellow - Protect level of Ontario's COVID-19 response framework. To keep up to date with the most recent News please visit: <https://www.timiskaminghu.com/>

Changes to our district's zone in the framework are not made lightly and are made by the government of Ontario in consultation with the Timiskaming Health Unit. Factors that are considered include the level of virus circulating within our community, the capacity of our hospitals and other healthcare partners, and the ability of public health to properly follow-up with cases of COVID-19 and their contacts in a timely manner. For more information on the details of the framework please visit <https://www.ontario.ca/page/covid-19-response-framework-keeping-ontario-safe-and-open>.

All businesses are required to read the framework and its accompanying regulation in order to determine what actions they must take to remain open. If you have any questions, please contact the Timiskaming Health Unit at 1-866-747-4305.

COVID-19 VACCINE – The Timiskaming Health Unit is in the process of vaccinating the identified priority groups. Prioritization has been based on direction from the province and other factors. Dates may change and will depend on vaccine supply and shipments. For more information visit: <https://www.timiskaminghu.com/90513/COVID-19-Vaccine>

The COVID-19 vaccine is not yet available to the general public. When it is, it will be advertised widely in our communities. The process will be similar to our annual flu clinics, and will be offered in many communities in the region.
